Function of school site council is to oversee budget and how money is spent. We recently received a grant from Chan Zuckerberg foundation. \$1,000 will go towards PNIS but majority should go towards staff appreciation. (\$6,500).

Teacher Appreciation:

Teachers appreciate lunches for each day of the week.

Invite teacher families and cook a lunch for the teachers and their families.

Gift Cards: Starbucks, Walmart, Visa, Target and gas cards.

Bring in a message therapist and provide message therapy throughout the week.

School Initiatives- ask if parents can come to SAMAN interviews on 10/06 at 2:35PM in library. Parent interviews have already been set up and parents have been contacted by Ms. Bui.

Pineapple Chart: This is an opportunity for teachers to observe other teachers. It is informal and teachers can spend 5 minutes to 20 minutes in a classroom. Admin and special teachers will cover teachers who may need it. Teachers who offer up their classroom will sign up on a chart already in the staff lunge and teachers who are interested will email administration letting them know if they require coverage for their classes.

Parent University: Friday they are having a presentation from Mayra Diaz from San Mateo County for nutrition. We will start with 10 minutes of yoga before the presentation. Mr. Duarte suggested having yoga there as well!

Best of Me & Peace Signs Assembly: From Keiser Hospital to help kids make healthier choices. 2nd – 5th grade and was very engaging and positive.

Lindsey Sterling: kids did come home and tell their parents about the assembly and it was paid by Donors Choose.

SKARK: 1st year with the full program. This year we have 20 (7th and 8th Grade) kids participating. They match up our students with people from different companies to help our students. Pay Pal, Sysco and Adobe will be participating with Chavez students. They have seen many students make gains in school because they see the value and result of getting an education.

Parent Garden: Is there a parent who would like to take this project on? We would need you to plant and take care of it. The first class of gardening for Parent University is 12/16. The soil can be prepared

Adjournment

(4:12 PM)

Our Vision:
